LESS GLARE | MORE GRIP

Same 40-Year
Warranty

TEXTURED
SHADOW GRAY

WHY CHOOSE TEXTURED?

The textured panels continue to be very popular in residential applications. Homeowners like it because the unique textured surface redirects sunlight for less glare than smooth panels. Plus the textured panels are less prone to "oil canning" which makes for a more attractive roof. Contractors like it because the texture provides more grip during installation than smooth panels. Because the textured coating is baked into the metal coil at the factory, our textured colors carry the same 40-year film integrity warranty as our smooth colors.
